

# R-9727

You know Red Dot's legacy R-9727 for its unmatched quality and durability. Now, we've **upgraded it for enhanced efficiency and performance** to offer heavy-duty operators an even higher level of comfort and safety.

## The new 9727-3P (12V) and 9727-3-24P (24V) feature:

- Increased cooling capacity
- A SPAL motor blower and condenser fan
- Red Dot electronic thermostat and integrated temperature probe
- Larger face-area evaporator with rifled tubing
- Hardline tube assemblies throughout unit
- Bulkhead fitting at rear of unit for customer connections
- Two-ton TXV
- New cover support strut
- Larger face area condenser
