HEATER COOLANT CONTROL

72R7130

ROTATION
120°
ACTUATOR

ELECTRONIC

BI-DIRECTIONAL WATER VALVE

Precise heater control.

A bi-directional electronic water valve that gives finer control over cab heat.

KEY BENEFITS

12/24 V Actuator

Works on 12 V or 24 V systems

120° Rotation

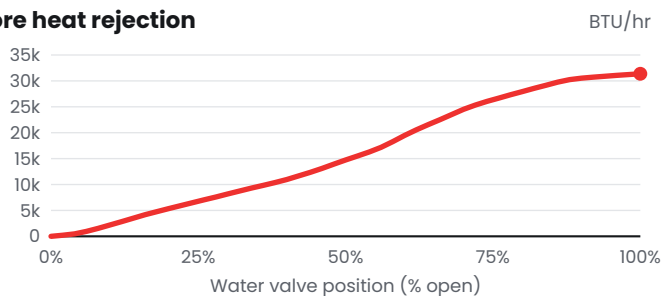

For improved temperature control

5/8" Hose connections

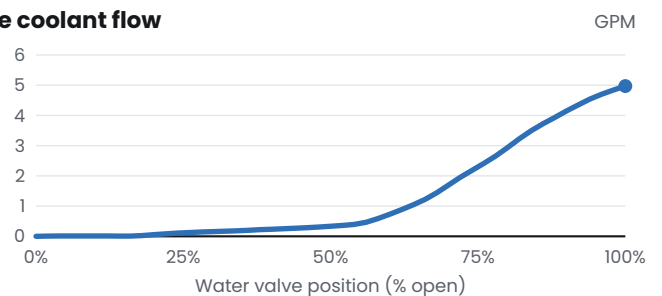

Standard heater hose size

PERFORMANCE · WITH R-9520-0P HEATER

Core heat rejection

Core coolant flow
