ROOFTOP LOW-PROFILE DESIGN

Sleek outside. Serious inside.

A low-profile housing designed to look right at home on today's truck and heavy-equipment cabs.

OVERVIEW

An all-new take on the R-6100.

The R-6101 is a new design of Red Dot's R-6100 rooftop air conditioner. Its injection-molded housing has pockets to hold the receiver-drier, blower assembly and evaporator core, so they're simpler to replace.

PERFORMANCE COMPONENTS

- 12-inch Spal fan
- Dual-scroll / dual-inlet Spal blower
- Rifled-tube evaporator
- Parallel-flow condenser

IN-CAB PLENUM

**Low profile.
High-velocity air.**

- Barely 1½" into the cab**
Blends easily into the headliner, leaving ample head room.
- 360° airflow**
Frigid, high-velocity air directed through large diffusers below the double blowers.
- Built-in filtration**
A cab air filter is incorporated into the plenum.
