REMOTE MOUNT CONDENSER

Mount it up top or underneath.

The industry's most versatile and rugged remote-mount condenser.

OVERVIEW

One condenser, two installs.

Its unique design allows installation on a horizontal surface or mounted below a roof or floor panel, simply by changing two hose connectors. Suitable for off-highway applications, commercial trucks or specialty vehicles where a radiator-mount or rooftop condenser cannot be used.

- Copper tubing, aluminum fins
- Plated coil steel headers
- 10-inch, 4-blade fan
- Single-speed long-life motor

OPTION 1

Horizontal surface

Rooftop or deck mount

OPTION 2

Under-panel

Below a roof or floor panel

Switch between them by changing two hose connectors.

Low, wide and rugged.

SPECIFICATIONS

Capacity	39,000 BTU/hr (8.8 kW)
Air flow	908 CFM
Weight	45 lbs
Current draw	12.3 A @ 13.6 VDC (incl. 4 A clutch) · 6.17 A @ 27.2 VDC (incl. 2 A clutch)
Fan	10-inch (25.4 cm) diameter, 4-blade fan with single-speed long-life motor
Materials	Copper tubing, aluminum fins and plated coil steel headers
Mounting	Horizontal surface or below a roof / floor panel

IDEAL FOR

Off-highway
equipment

Commercial
trucks

Specialty
vehicles

Where a radiator-mount or rooftop condenser cannot be used.
