POLARIS RZR PRO XP · 2-DOOR & 4-DOOR

RZR PRO XP A/C KIT

The **first-ever A/C kit** for the **Polaris RZR Pro XP** — real air conditioning for off-road riding, powered by RedDOT's patented drive system.

30%

Up to 30% more cooling than factory-installed systems

104°F

Climate wind-tunnel tested with full solar load

3

Large adjustable vents for targeted cooling

60yrs

RedDOT experience in heavy-duty mobile HVAC

COOL AIR, WIDE OPEN

The RZR Pro XP was never built with air conditioning in mind, and its magneto charging leaves little power to spare. RedDOT's patented, belt-driven drive system solves that, giving the Pro XP a dedicated power source for a true A/C

compressor. Paired with a roof-mounted two-fan condenser and a ceiling-mounted evaporator with three adjustable vents, the system is designed for off-road riding, delivering targeted airflow and serious comfort without slowing you down.

HOW IT WORKS

1

DRIVE

Belt-driven power from the engine

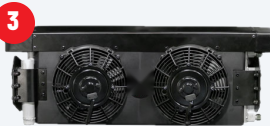

2

COMPRESSOR

Pumps refrigerant through the system

3

CONDENSER

Two fans shed heat outside the cab

4

EVAPORATOR

Cold air through 3 adjustable vents

WHY REDDOT

PATENTED DRIVE SYSTEM

Belt-driven U-1001-1P drive built for the Pro XP, overcoming magneto limits.

WIND-TUNNEL TESTED

Proven in RedDOT's climate wind tunnel at 104°F with full solar load.

3 ADJUSTABLE VENTS

Three large adjustable vents put cooling where it's needed, with push-button fan and A/C control.

UP TO 30% MORE COOLING

RedDOT rates its A/C kit at up to 30% more cooling than factory-installed systems.

MADE FOR OFF-ROAD

Designed for off-road riding: targeted airflow and serious comfort without slowing you down.

DEALER INSTALLED

Plug-and-play design installed by trained RedDOT dealers for minimal downtime.

WHAT'S IN THE KIT

A/C KIT

REQUIRED

U-1001-1P

Drive System Base Kit — Pro XP / Pro S

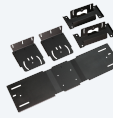

U-1002-0P

Compressor — UTV

U-1008-0P

Condenser Assembly — 2-Fan (RZR)

U-1047-0P

Condenser Mounting Kit — Pro XP / Pro S

U-1009-0P

Evaporator — A/C Unit

U-1046-0P

Evaporator Mount Bracket Kit — Headliner

U-1042-0P

Ceiling-Mount Evaporator Harness — 12 ft
2-door & 4-door

U-1043-0P

Ceiling-Mount Evaporator Harness — 4 ft
4-door only (with U-1042-0P)

U-1035-0P

A/C Installation Kit — Polaris

Evaporator harness: 2-door models use the 12 ft harness (U-1042-0P) only. 4-door models use both the 12 ft (U-1042-0P) and 4 ft (U-1043-0P) harnesses.

! Requires hoses and fittings for installation. See dealer for recommendation.

ADD-ONS

ADD MORE

HURRICANE ROOF FAN

Forced-air cab cooling

U-1004-0P

Hurricane Rooftop Fan

U-1021-0P

Pigtail Harness — for longer wire runs

VEHICLE FITMENT

Polaris RZR Pro XP

2-Door & 4-Door · 925cc

Does not fit the Polaris RZR Pro R.

BUILT BY REDDOT

Founded in 1965 and 100% employee-owned since 2000, RedDOT Corporation engineers heavy-duty mobile HVAC and holds more than 25 domestic and international patents. Our systems are available exclusively through carefully selected and trained dealers.
